

Joy Carpets & Co.

Corporate Brochure

Residential

Flooring solutions to complement the most demanding interior designs.

If you are looking for something extraordinary in that special room of the home, fill the void with our broad selection of specialty floor coverings. Joy Carpets' products express personal style, complement specialized décor, and maintain their original beauty in even the most active households.

...for the home

In a business interior, the floor serves as the room's foundation yet is often overlooked as a design element. Choosing the appropriate flooring can reinforce the corporate brand while creating a warm and hospitable atmosphere that enhances a visitor's experience.

Welcome visitors and deliver a positive first impression with any of our hundreds of flooring options. Our products are manufactured to withstand the high-traffic and year-round abuse found in the busiest commercial facilities.

Commercial

High-traffic flooring for creative working environments.

...for work

If durability and performance are the highest priority, our high-energy broadloom, modular carpet, and luxury vinyl tile will not disappoint. Use our creative designs to add an extra dimension to public spaces such as theaters, casinos, bars, restaurants, and health and fitness centers. For projects that require immediate service, choose from hundreds of our running line patterns. Or, utilize our custom capabilities to create a signature design with visual impact.

Hospitality

Subtle or exciting...carpet to define and energize any public space.

...for fun

Educational

High performance, educational carpet for inspired learning centers.

Can a carpet improve an overall educational environment? We say yes! Carpet color, design, and comfort all contribute to the degree to which information is absorbed and is directly related to the health, image, self-esteem, and attitude of students and teachers.

Our products combine award-winning designs with top level warranties, ease of maintenance, and surpass all health and safety standards related to indoor air quality, flammability, and noise reduction.

The First and Still the Best:

As a fourth-generation business, Joy Carpets is the leader in the design and manufacture of specialty flooring for creative and eye-catching interiors. We take pride in providing industry-first floor coverings to residential, commercial, hospitality, and educational markets.

Joy pioneered specialty flooring for high-traffic, commercial interiors with the introduction of the first-ever recreational carpeting, Games People Play®, in 1973. Since that time, we have been committed to meeting the unique needs of our customers by providing the highest quality products through cutting edge technology and design.

Quality Service and Excellent Value:

Using only premium quality yarns, injection dye processes, and innovative backing systems, Joy Carpets delivers outstanding performance in residential to commercial environments. We stand behind our products with attentive customer service, and our products are backed by comprehensive warranties for peace of mind.

Made at Home...Found Worldwide:

Joy Carpets has established an excellent reputation for the design and manufacture of specialty floor coverings. Our products are made in the USA and can be found around the globe.

Design Your Space with Confidence:

Our exciting patterns add energy to any room. Choose from hundreds of styles in our design archives, or we can make your unique concept a reality with our custom capabilities, including state of the art, high-definition, injection dyeing.

When creative, colorful, and versatile flooring is needed, look with confidence to Joy Carpets to satisfy your needs. We offer the best quality, value, warranty, and service in the industry. Remember, for flooring that looks good and can take it, Joy makes it!
